### Last 2 Months Neighbor Comparison

You used **63% less** electricity than your efficient neighbors.

\* kWh: A 100-Watt bulb burning for 10 hours uses 1 kilowatt-hour.

How you're doing:

▶ **GREAT** 😊😊

Good 🌱

More than average

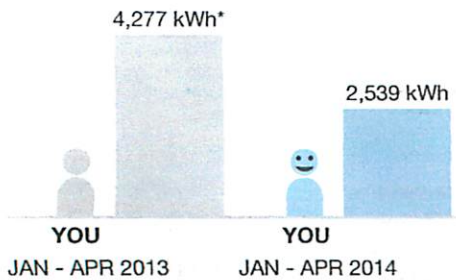

### Who are your Neighbors?

■ **All Neighbors:** Approximately 100 occupied, nearby homes (avg 0.57 mi away) that have electric heat

■ **Efficient Neighbors:** The most efficient 20 percent from the "All Neighbors" group

### Personal Comparison

How you're doing compared to last year:

\* kWh: A 100-Watt bulb burning for 10 hours uses 1 kilowatt-hour.

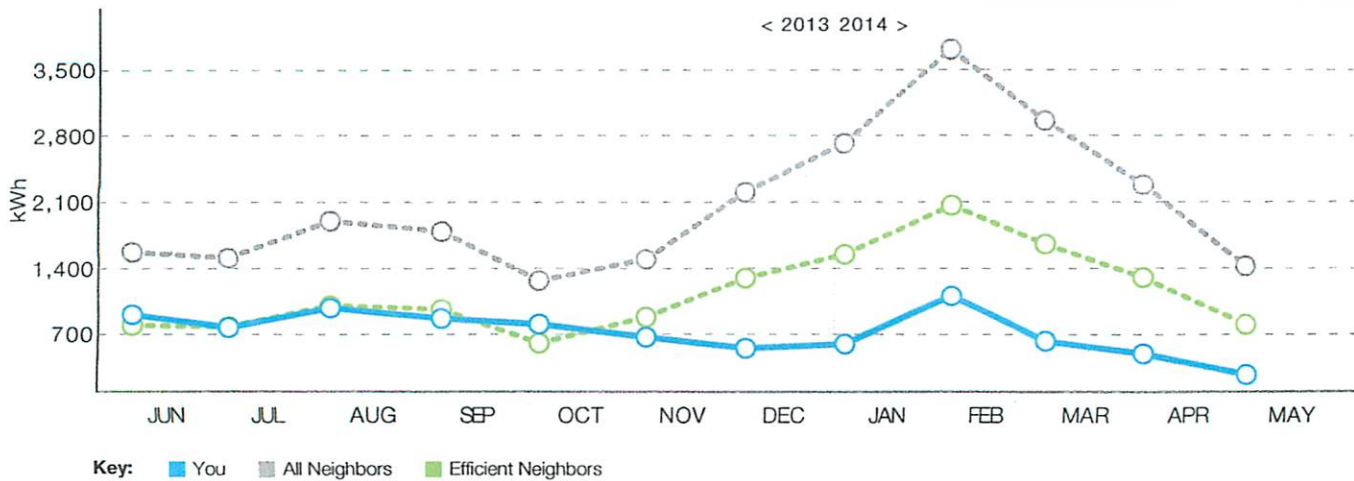

So far this year, you used **41% less** electricity than last year.

★ You're on pace to use less in 2014.

Turn over for savings →

## Last 12 Months Neighbor Comparison

You used **65% less** electricity than your neighbors.  
This saves you about **\$2,383** per year.

**Personalized tips** | For a list of energy saving investments and smart purchases, visit [BGESmartEnergy.com](http://BGESmartEnergy.com).

### Quick Fix

Something you can do right now

#### Recycle your second refrigerator

Refrigerators from the year 2000 or earlier use 40% more energy than today's most efficient units.

If you have a spare refrigerator or freezer you probably pay more to run it than your primary one in the kitchen.

Recycle your extra appliance for instant energy savings and we'll give you a **\$50 rebate!**

Get more information at [BGESmartEnergy.com](http://BGESmartEnergy.com).

### Smart Purchase

An affordable way to save more

#### Save on cooling with a programmable thermostat

Programmable thermostats make it easy to save energy by automatically adjusting the temperature to fit the season and your schedule.

Choose an energy-saving setting when you are home. Raise the temperature 10°F when you are away from home or sleeping.

Choose the correct programmable thermostat for your heating and cooling systems. If you have a heat pump, be sure to buy a model designed for a heat pump.

### Great Investment

A big idea for long-term savings

#### Home Performance with ENERGY STAR®

We can help you find opportunities to save energy and money in your home through our Home Performance with ENERGY STAR Program. A certified contractor will inspect your home and recommend energy efficiency improvements.

You could be eligible for **up to \$3,150** in rebates for qualified energy-saving home improvements. For details visit [BGESmartEnergy.com](http://BGESmartEnergy.com).
